PRODUCT SPECIFICATION

409 Swing Handle

409

ALL METAL, VANDAL-RESISTANT SWING HANDLE WITH GEAR BOX.

OVERVIEW

Vandal-resistant geometric design.

The 409 is a strong, all metal swing handle specially designed with vandal-resistant geometry. This is enhanced by double o-rings for improved ingress protection and anti-corrosion properties. **A range of compatible cams, rods and multi-point locking accessories are available to order alongside this handle.**

Product features

- o Protective vandal-resistant geometry
- o Magnetic dust cap
- o Double skin version available (409-3)
- o Choice of seven different cylinders, including a master key system
- o Ideal for outdoor, unmanned applications
