PRODUCT SPECIFICATION

501 Swing Handle

501

**ZINC ALLOY SWING HANDLE WITH
EURO PROFILE LOCKING CYLINDER.**

OVERVIEW

Low profile, cam operated swing handle

This smart looking, slim profile swing handle is suitable for outdoor cabinetry. The 501 accepts a choice of two high security brass or zinc alloy cylinders for a robust solution. Available with a dust cover to conceal your choice of locking cylinder.

A range of suitable cams are available, including special Actuator Plate for multi-point locking.

Product features

- o Thin external 14.4mm profile with flush appearance
- o Suitable for multi-point locking
- o Alternative versions: With dust cap and/or padlockable
- o Stainless steel version available subject to quantity
