ACS-051

STANDALONE CONTROLLER TOUCH PANEL RFID READER

OVERVIEW

The ACS-051 is a glass fronted, narrow style single door RFID standalone access control. It can be connected with an external card reader for functions such as anti-passback. It can directly drive electric lock, alarm, and external exit button and magnetic door switch. It works with an RFiD card, RFiD fob and pin code.

Accessory
Separate reader available.
