

# GAMING & AMUSEMENTS

The gaming industry covers a wide range of activities, from arcade games, and slot machines to roulette and electronic table machines in casinos. Operators need security options that cover the whole spectrum. Implementing electronic locking systems within these industries helps safeguard valuable assets in an industry where security is critical. Camlock Systems has developed a range of products to suit the amusements and gaming industries, including mechanical and electronic locks and access control systems. We can offer standalone products or complete systems depending on requirements.

#### SERIES 63

## MANIPULATION-RESISTANT, BRASS LOCKING CAM LOCK WITH AXIAL PIN TUMBLER MFCHANISM

The Series 63 is a medium strength locking insert, which houses our unique AXIAL Pin Tumbler mechanism in a high quality brass body with a satin chrome finish.

- Superior key control. Will cross-suite with Series 65
- Patented mechanism and keyway
- · Unique flag-shaped pins
- No shear line = high bump resistance
- Registered keys exclusively available from Camlock Systems
- · Compatible with any locking hardware product taking standard length inserts

Medium physical attack resistance

Indoor and outdoor use

#### SERIES 65

# HIGH SECURITY, MANIPULATION-RESISTANT, HARDENED STEEL CAM LOCK WITH AXIAL PIN TUMBLER MECHANISM

The Series 65 is a high strength locking insert, which houses our patented, manipulation resistant AXIAL Pin Tumbler mechanism in a resilient, hardened steel shell.

- Superior key control and cross-suiting
- No shear line = high bump resistance
- Unique "flag-shaped" locking pins
- · High physical attack resistance
- Registered key exclusively available from Camlock Systems
- · Compatible with any locking hardware product taking standard length inserts

High manipulation resistance

High physical attack resistance

Indoor and outdoor use

#### SFRIFS 4 MKIV

The 'Camatic' is Camlock Systems unique, changeable combination system. In the event of the loss or theft of operating key(s), the lock combination can be altered by a turn of the Change Key.

- · Eight pin Radial Pin Tumbler
- · Changeable mechanism with eight combinations
- · Exclusive Octagon technology
- · Change indicators on the lock bezel
- · Zinc alloy body, polished chrome finish
- Operator and change keys sold separately for optimal key control
- Key registration

#### SERIES T48

# CAMATIC CAMLOCK TWELVE COMBINATION CHANGEABLE OCTAGON MECHANISM

The 12 change 'Camatic' combination change system is combined with Camlock Systems 'Octagon' system to provide excellent pick resistance and minimize the risk of loss through theft using stolen or compromised keys.

- · 12 pin Radial Pin Tumbler
- · Changeable mechanism with twelve combinations
- High Security
- · Exclusive Octagon technology
- · Change indicators on the lock bezel
- Brass body with polished chrome finish
- Key registration

#### SERIES 28 AND 58

#### SOLID BRASS CAM LOCK WITH SEVEN-PIN OCTAGON MECHANIS

- · Seven-pin, Radial Pin Tumbler
- · Exclusive Octagon mechanism
- · Durable brass construction
- Anti-drill centre for added protection
- Seven key operations available
- · Choice of five body lengths

The Series 58 offers all the features as the 28 with the addition of master keying.

Medium physical attack resistance

Indoor and outdoor use

## CAM LOCKS

SERIES 31 Double entry cam lock with heavy duty keys

SERIES 9 Zinc alloy cam lock with 5 pin disk tumbler

SERIES 2
Solid brass cam lock
with Radial pin tumbler
mechanism

SERIES T Solid brass Cam Lock with a 10-pin RPT Mechanism

SERIES 4150 Zinc alloy, three-digit combination Cam Lock

## **SWITCH LOCKS**

SERIES 28 Single pole, extra security, 7 pin, solid brass Switchlock

SERIES 2D Single pole, 7 pin, die-cast switchlock

### **PUSH LOCKS**

SERIES 25 Brass Push Lock with our seven pin, Octagon mechanism

SERIES C990A 5 disc, flange fixing pushlock, for sliding wooden doors

SERIES G8990 Extra security, 7 pin, flange fixing push lock for sliding wooden doors

SERIES 3O 6 disc, double entry pushlock, threaded body, nut or clip fixing

## MICRO LOCKS

SERIES 13D Single pole, 7 pin, die-cast switchlock

SERIES 21 8mm zinc alloy Cam Lock. Five disc tumbler mechanism

# ELECTRONIC LOCKING AND ACCESS CONTROL

#### SERIES 100

The Series 100 is a motorised rotary latch with a high-strength, tamper-resistant mechanism, providing strength and environmental resilience. The Series 100 MK2 offers additional features such as built in door monitoring, improved latch monitoring and utilises micro switches for more accuracy and reliability.

- Two symmetrical stainless steel jaws
- · Lock status monitoring for added security
- IP65 Rated
- Operates in extreme temperatures (-40°C to +65°C)
- · Low operating current

- · Fitted with mechanical override
- Tested to 100,000+ usage cycles
- Rigorously tested to 7,000N of holding force
- · and 300N of pre-load
- Integrates with CAMACTIVE access control system or existing systems

#### **SERIES 400**

The series 400 is a micro latching system available with either a rotary or slam latch. Its small size enables electronic locking in cabinets with spacial constraints.

- · Two part, detachable lock and actuator
- · Allows remote trigger via Bowden cable
- · Easy-to-install. Universal fitting options
- Create multipoint locking by operating two latches via one actuator
- · Lock and optional door monitoring
- · Tested to 100,000+ usage cycles
- · Tested to 2,800N of holding force
- Available as 90° rotary and slam version

CAMCTIVE wireless access control systems give the user control over who, when, where and for how long a machine is accessed. It is possible to grant or revoke permissions and provide one time access where required, negating the need for physical keys.

CAMACTIVE wireless access control system offers:

- Mobile based bluetooth control
- Dedicated app
- Control from one online portal
- Secure online access
- Data encryption
- Control of user permissions
- Limiting and scheduling access
- Customisable reports
- Works with all Camlock electronic latches and offers mechanical or electronic override
